

ST. ADALBERT'S
CATHOLIC CHURCH

Introduction

Introduction

This document contains assessment and conservation information of several stained glass windows in St. Adalbert's Catholic Church—which is located at 507 S. Olivev Street, South Bend, IN 46619. The included map of the church details the position of each window, where windows further from the floorplan are located on higher stories of the church. Assessed windows are shown by shading: specifically, the ten aisle windows and the minor stained glass windows in the choir loft were assessed as they can be almost fully examined without assistance of ladders or boom lifts.

The assessment team was composed of five fourth and fifth-year undergraduates (whose names and contact information are shown below) from the University of Notre Dame under the supervision of Dr. Stephen Hartley, Associate Professor of the Practice in the School of Architecture. Assessment was conducted between 9:00 am-12:00 pm on 10/03/23, 10/10/23, and 10/17/2023.
