

FLOOR PLANS

With two courtyards in the middle of the building, one for quiet reflection and one for exercise, the rest of the building is organized around them. The ground floor is the public area, with a security desk right at the main entrance to ensure the safety of everyone inside. To the left is a semi-public zone that houses therapy rooms and quiet rooms for retreat, whereas to the right is the cafe and administrative offices. Along the back of the building is where larger productive spaces are located, and right at the center between the two courtyards is the activity center, a space for cultivating connectivity. Upstairs is the residential area for people who need to spend a night at the center, with kitchens, laundry, a lounge, and a study.

PROGRAM SUMMARY

- Pause and Activity Zone:
activity center, cafe
